

Sachin Manoj

Ernakulam,Kerala,India | sachumanu002@gmail.com | 8921484503 | github.com/sachin136631

Education

Bachelors of Computer Science , Cochin University of Science and Technology	Expected 2026
Higher Secondary , Model School, Abudhabi	2020 – 2022

Skills

Technical Skills: Python, Java, C, C++ , JavaScript, HTML, CSS, React, Node.js, MongoDB, SQL, Power BI, OpenGL, express.js.

Soft Skills: Creative, Collaborative, Decision Making, Adaptive, Problem Solving

Languages Known: English, Malayalam

Experience

Technical Experience

- **Web Development:** Proficient in full-stack development using the **MERN stack** (MongoDB, Express.js, React.js, Node.js).
- **Backend Development:** Developed RESTful APIs using Node.js and Express.js for various projects, including A/B testing solutions with Firestore integration.
- **Database Management:** Hands-on experience with **MySQL**, **MongoDB Atlas**, and **Firestore** for efficient data storage and retrieval in projects.
- **Frontend Development:** Built responsive UIs using **HTML**, **CSS**, **JavaScript**, and frameworks like **React.js**. Expertise in designing user-friendly interfaces and conducting A/B testing for optimization.
- **Internships:** Interned as developer at Mind Empovered.

Non-Technical Experience

- **Mentoring and Instruction:** Mentored over 50 students in development and UI/UX at **Tink-Her-Hack**. Currently teaching **Python programming**, **UI/UX**, and **app development** as an instructor at **Gyanoholic**.

Projects

Diagram Editor

Description: A webapp enabling users to create and edit diagrams in real-time using a text-based interface in the English language.

Technologies: MERN stack, Kroki API, Gemini API

GitHub: <https://github.com/sachin136631/diagram>

Tracking Pixel Implementation

Description: Created a custom tracking pixel for A/B testing, enabling the collection and analysis of user interaction data to optimize website performance.

Technologies: JavaScript, Node.js, Firestore

GitHub: <https://github.com/sachin136631/PixelPerfect>

Urban Aircheck

Description: Real-time air quality monitoring web application that provides the air quality of various cities worldwide.

Technologies: JavaScript, Express.js, Node.js, Embedded JavaScript

GitHub: <https://github.com/sachin136631/Urban-air-check>
